## Philosophy statement

Lockleys Preschool has a proud history of providing high quality early childhood programs to the community. Staff are committed to maintaining this standard by working in partnership with families. We provide an inclusive program that is responsive to the learning needs of all children. We are committed to providing a play based curriculum in a vibrant, challenging and safe learning environment. We plan our curriculum using the EYLF and RRR to ensure an improvement cycle and reflective practice.

We believe that parents are the first and most significant teachers of their children. The most effective and important learning occurs when we work collaboratively with families to enable individual children to reach their full potential and develop a love of lifelong learning.
